SECURITY GRILLES

Security grilles, either horizontal sliding or vertical, are permitted only at the main entrance/exit of Groups B, F, M, and S occupancies. During periods of time when the space is occupied, including those times when occupied by employees only, the grilles must be openable from the inside without the use of a key or special knowledge or effort. They must be secured in the fully open position during those times when the space is occupied by the general public. Where two or more means of egress are required from the space, a maximum of 50 percent of the exits or exit access doorways can be equipped with security grilles.

Examples of **COMPLIANT** security grilles:

Security grille is installed on the interior of the building and locked open whenever the space is occupied.

Security grilles are installed on the exterior of the building are locked open whenever the space is occupied.
